

SOLUTIONS FOR CATHOLIC PARISHES

“Then there appeared to them tongues as of fire, which parted and came to rest on each one of them. And they were all filled with the Holy Spirit ...”

—ACTS 2:3-4

These unprecedented times in the Catholic Church call for bold action. As parish leaders you are challenged to welcome and form people as missionary disciples while also planning for the temporal resources of your parish. You seek information and guidance to help you plan for a parish structure that keeps Christ at the center of ministry and serves people effectively. You are listening to understand who is disconnected or has never been connected to the Church community. And you are seeking ways to simplify processes while securing operations.

ACS Technologies equips and enables your parish to invite people into a relationship with the Church and foster their journey to missionary discipleship. Our resources help you to identify who you want to reach and how best to support your ministry to serve your community better:

SEE:

- Who makes up your parish community
- Who are the people you could or should reach
- What has changed within your community

SERVE:

- Engage your parishioners and foster their faith journey
- Evangelize and welcome your surrounding community
- Know what outreach and services are needed most

KNOW:

- How effective your ministries are
- Resources, training, services, and education are available from ACST
- You have a faithful partner who is here to accompany you in your mission

MISSIONINSITE

MissionInsite leverages multiple data sources such as Experian and the US Census to provide insights into community demographic information. Reports and visualization capabilities show parishes and dioceses where opportunities exist for growth in their ministries.

MinistryPlatform

MinistryPlatform was launched with the goal of serving large, multi-site, and multilingual churches and dioceses by providing the flexibility to meet the needs of the individual church or diocese. MinistryPlatform includes open data architecture, robust APIs to support integrations, and customizations.

MinistrySmart™

Leveraging over 40 years of experience working with parishes and dioceses, ACS Technologies offers training and services for our solutions, as well as ministry consulting to reach specific goals. MinistrySmart also offers podcasts, an online community, and conferences.

Parish Data Systems (PDS) was built specifically for Catholic parishes and dioceses. PDS enables staff, leadership, and volunteers and provides insight from parishes to the diocese. Over 10,000 parishes and dioceses use PDS to support their missions.

ABOUT ACS TECHNOLOGIES

Our mission is to enable every Catholic diocese and parish with personalized ministry resources that help you see, serve, and know your community more.

We can equip you to engage more meaningfully with people in their faith journey today while planning for the future tomorrow, through data-informed, mission-driven ministry. Together, we can change lives forever.
