

MinistryPlatform eGiving

“ The generous will be blessed, for they share their food with the poor.
Proverbs 22:9

Stewardship is vital to expressing parishioners' faith. Foster engagement by facilitating convenient giving methods and maintaining transparent communication about how their contributions support your ministry. MinistryPlatform eGiving is a comprehensive online giving solution that efficiently integrates with MinistryPlatform. It delivers real-time transaction updates and provides donors with a seamless experience when contributing through your website, the PocketPlatform mobile app, or text.

AUTOMATION

Save time with an integrated online giving solution. Our API integration removes the need for manual export and import, as transactions will update in MinistryPlatform in real time. Plus, donor matching logic makes matching donations to existing donors in your Platform quicker.

POCKETPLATFORM INTEGRATION

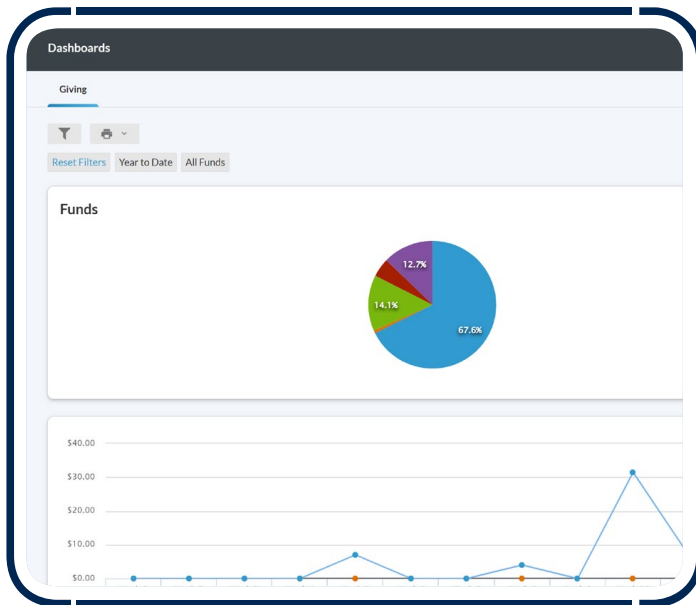

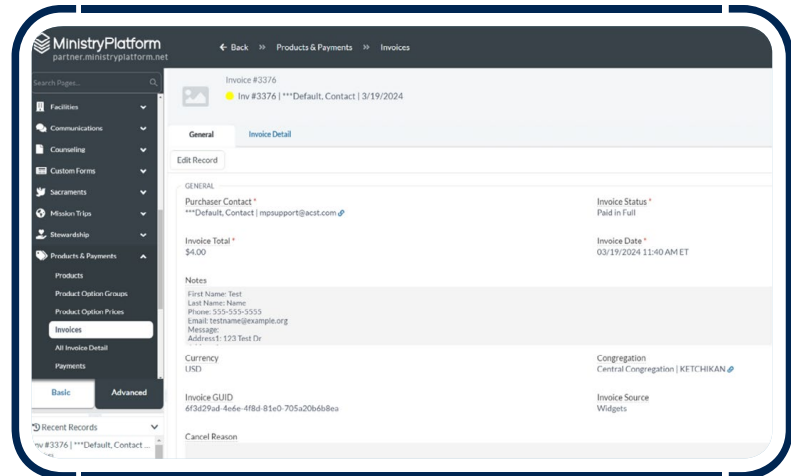

MP eGiving integrates with PocketPlatform, allowing you to offer in-app giving through Widgets or embedding your giving form.

RECURRING GIVER MIGRATION TOOL

This tool within MP eGiving provides your staff a way to communicate with recurring givers and track their migration statuses to ensure recurring gifts are set up in your new online giving solution.

EVENT PAYMENTS

Staff can manage event payments more efficiently, seeing when an event has been paid for in MinistryPlatform and exporting event payment transactions from the online giving solution as needed. Parishioners register through the Event Details & Registration Widget; the event payment form will show when it's time for payment.

GIVING FEATURES

- Customizable giving forms
- Text giving
