Core Payroll

Never manually track information or manage multiple databases again.

Core Payroll is the foundation for Realm's robust payroll and compensation solution. Save time by removing the need for duplicate entry and cumbersome reconciliation with an integrated payroll solution easily added to the accounting software you already use.

Problem to Solve:	Core Payroll Solution:
Processing and printing paychecks correctly, using the latest version of the IRS and State regulations can take time and manpower you don't have.	Realm Accounting with Payroll handles all of the changes to IRS and State regulations so you do not need to think about it.
Tweaks are often needed to your payroll system to handle the unique situations of ministerial compensation, requiring specialized knowledge.	In Realm Accounting with Payroll, you can easily set up ministers' compensation by answering various questions during the setup process.
Manually completing and reconciling printable tax forms with payroll information can be time consuming, tedious, and makes you prone to mistakes.	Moving from paper to e-filing means no printing, no signing, and no mailing your tax forms. E-file your forms directly in Realm and receive an email confirming your forms have been submitted and accepted by the IRS.
Duplicate entry is time consuming and costly in labor when using separate products for payroll and general ledger.	At the end of the payroll processing cycle, you can easily choose to post the payroll to the Realm Accounting GL with the click of a button, with no need for calculating and entering manual journal entries. Plus, Realm Accounting with Payroll uses the same profile records for employees and doesn't require adding them in again.

Manual Entry Disadvantages:

- Manually processing payroll makes you prone to errors or duplications.

- Not following the correct, most up-to-date regulations from the IRS can cause problems down the road.

- It can take hours to go through the details and accuracy of records, calculate salaries and deductions, and make sure you're complying with all government procedures.

Core Payroll Advantages:

- Eliminating manual entry makes you less likely to have mistakes in your data.

- Regulations are kept up to date so you don't have to worry about them.

- More time can be spent supporting other areas of ministry.

Key Features:

- Process and pay US employees through printed checks or direct deposits, including special ministerial situations.

- View history of individual employee's payroll with details.

- Use e-filing to simplify your annual payroll tax forms (Forms 941 & 1096, W-2s & W-3s, ACA forms, and state payroll forms).

- Run queries and reports showing payroll amounts by employee, historical information, and payroll journals.

- View and re-print employee W-2s.

- Print payroll tax liability reports to determine the appropriate payroll taxes that were withheld and/or are due.

- View and print a list of employees.

Never waste time or effort on payroll again.
