

Groups

Continue church connections throughout the week

Groups are integral to keeping worship, fellowship, and connection alive from Sunday to Sunday. Realm Groups provides everything your church, group leaders, and participants need to continue engagement throughout the week.

Problem to Solve:	Realm Groups Solution:
Group leaders need tools to manage groups.	With Realm Groups, leaders can post messages to their newsfeeds, share files, create group events, send private messages, manage rosters, and take attendance online or via the Connect app.
Congregants want to join groups.	Congregants can view a list of groups and filter based on their interests.
Group members want to interact.	Realm Groups are completely interactive. Group members can post messages to the newsfeed, like or comment on posts, and send private messages to the leader or other group members.
Churches need to know who is participating.	Dashboards in Realm automatically populate with group attendance, and you can also filter for specific groups.
Church staff needs to stay connected.	You can set up groups within Ministry Areas in Realm and take advantage of all the functionality of small groups.

Realm Groups Advantages:

- Complete set of tools for group leaders
- Multiple ways for group members to interact virtually
- Overall and group level attendance tracking

Key Features:

- Leader-managed roster
- Attendance
- Content sharing
- Content oversight
- Search & Join
- Interactive Groups
- Group Events
- Ministry Area Categorization

Realm eGiving makes it a lot easier for your congregation to give and for your staff to manage all your eGiving.
