

# Refresh Websites

## A virtual front door to your church

Every church needs a welcoming virtual presence to attract new visitors and keep their congregation engaged and up to date. Refresh Websites is an easy-to-use solution that allows you to build a professional website that reflects the branding of your church and easily share information about your ministries.

Problem to Solve:	Refresh Websites Solution:
Churches want a professional website but do not have web developers on staff.	Refresh Websites has templates; you don't need to build a website from scratch, and editing is easy with drag and drop widgets. No coding is required so anyone can build out a beautiful, professional site.
Churches need to share information online.	Refresh Websites includes unlimited pages so you can share information about all of your ministries, including events, fundraising campaigns, mission trips, virtual worship opportunities, and more.  You can schedule content in advance to keep your online presence dynamic and engaging.
Churches want to attract new people.	Refresh Websites is SEO optimized so visitors can easily find your church online. There is no limit to the number of pages, so you can create a page that welcomes and prepares visitors for their first visit.
Churches want to control their branding.	Refresh Websites allows you to choose colors and fonts and select or upload images so that your website reflects your church.
Churches want to know who is visiting their site.	Refresh Websites analytics will give you insight into which pages people are visiting the most, how they came to your page, the geographic location of website visitors, and more.
Churches are doing duplicate entries to keep their website up to date.	Refresh Websites is integrated with Realm, allowing staff to post giving, events, and group information from Realm onto their website.
