

Realm eGiving

The total eGiving solution for your church

Realm eGiving fuels your ministry by offering multiple giving options to fully accommodate your congregation’s needs.

Problem to Solve:	Realm eGiving Solution:
Congregants need to be able to give from anywhere anytime.	With eGiving through Realm, your congregants no longer have to worry about not giving due to missing a service or forgetting their cash or checkbook. Realm eGiving allows them to give online, through text, or in the mobile Connect app using a debit card, credit card, or ACH. Congregants can also set up recurring donations or make one-time gifts with or without a Realm login.
Church staff need to be able to manage giving efficiently.	eGiving is fully integrated with Realm, meaning gifts post directly into Realm Contributions allowing your staff more time to focus on ministry. Staff can also add, edit, and refund gifts as needed.
Congregants want to easily give to multiple funds.	Giving to multiple funds shouldn’t mean re-entering your donation information multiple times, which is why Realm eGiving allows your donors to give to multiple funds within one donation.
Church staff want to have custom giving forms for multiple funds.	Realm eGiving gives you the ability to customize your giving forms for specific funds and add messaging so that your forms clearly communicate their mission and purpose.
