YOUR
MINISTRY
ONLINE
WITH
REALM**

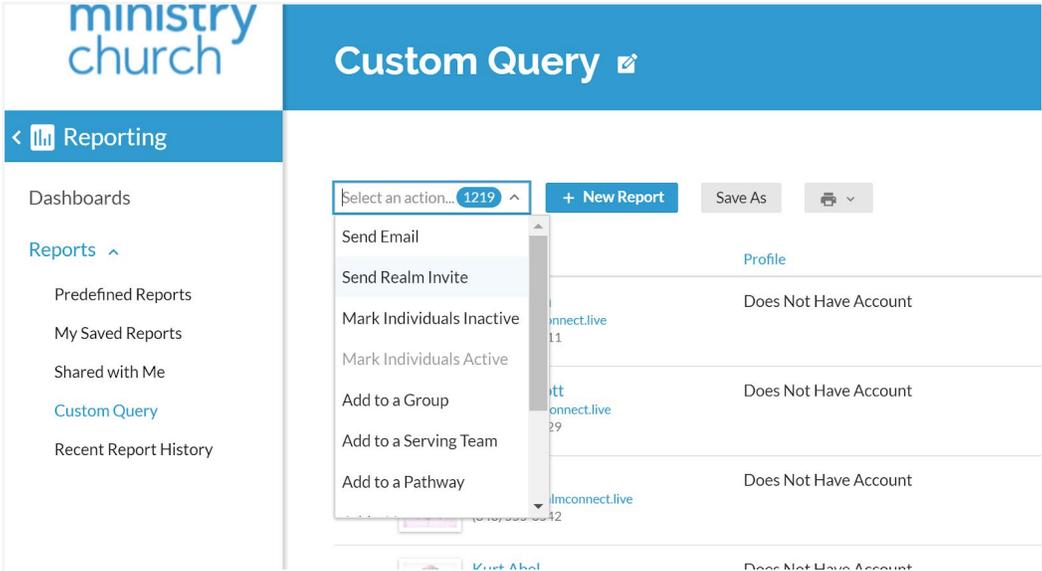

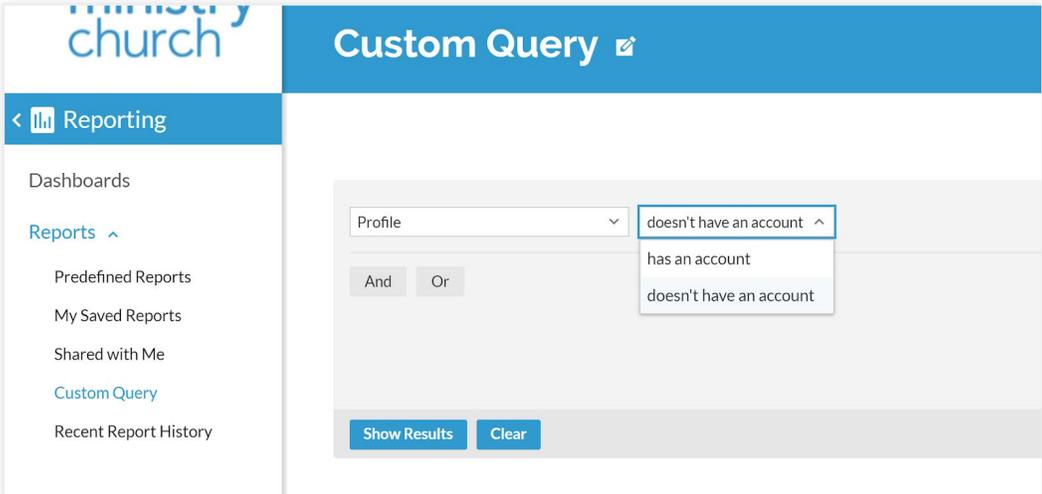

SOLUTION GUIDE

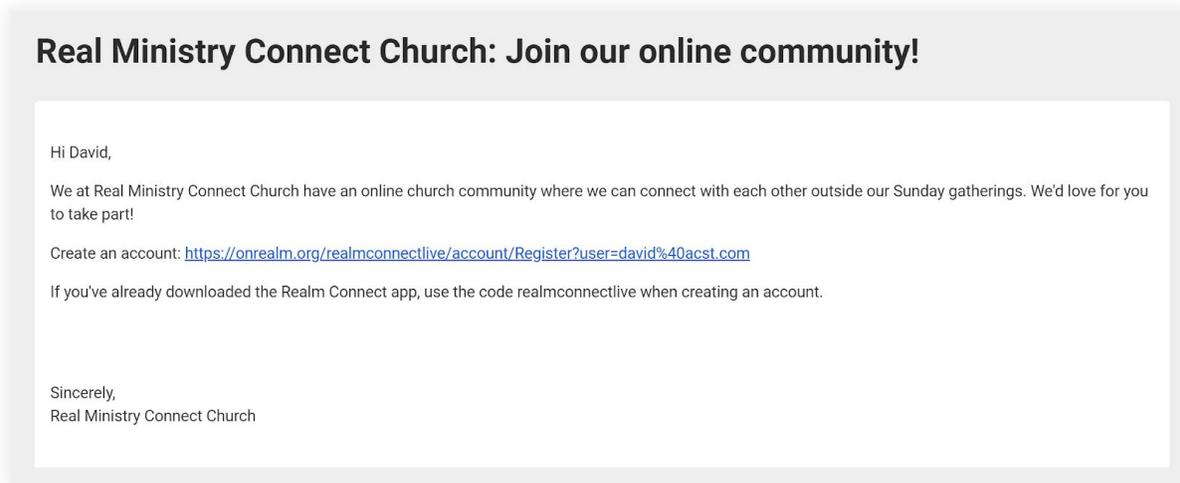

Worshiping, connecting, volunteering, and giving are all essential to the life of a church. Realm provides you and your congregation with the tools you need to do all of these and more to keep your church united and engaged from anywhere.

INVITE YOUR CONGREGATION TO JOIN REALM

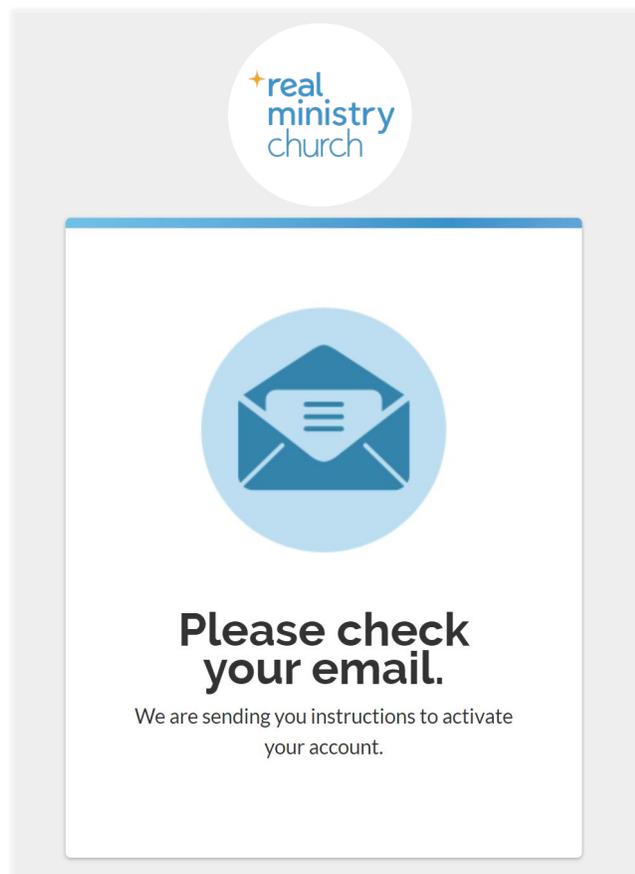

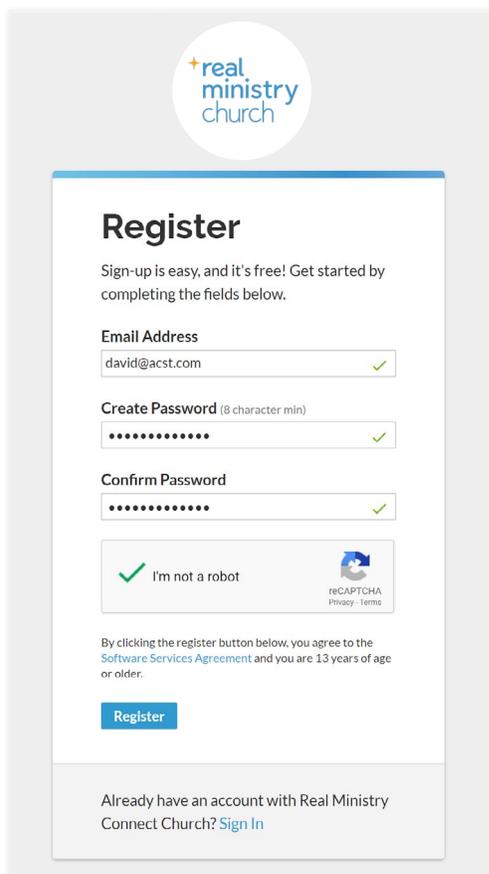

- 1. Get connected** - The first step to effectively connect with your congregation is to make sure they have a Realm account. You can easily send everyone in your congregation an invitation from the Custom Query area in Realm. Once they receive the invitation, they can create their Realm account.

- 2. Create a Realm account** - Once you've sent your invitations, each individual can simply check their email for their Realm invitation. Once opened, they'll click the Create an account link to get started.

- 3. Create a password** - The congregant will then be taken to the registration form so they can create their password and register fully with your church in Realm. For safety and security, a follow-up email will be sent to them so they can verify their account.

4. **Verify account** - Lastly, each individual will need to click the Verify your email link in the follow-up email. Clicking the link will verify their account and take them back to Realm. The individual will then be able to sign in to their Realm account.

Real Ministry Connect Church: Email Verification

Hi,

Thank you for joining our online church community!
Before you can sign in, please verify your email to complete your registration.

Verify your email: <https://onrealm.org/realmconnective/account/Validate?user=dsanderson22%2b223%40gmail.com&token=6MViwS19Fap0hcS>

Sincerely,
Real Ministry Connect Church

DOWNLOADING THE REALM CONNECT MOBILE APP

The Realm Connect mobile app was designed specifically for your congregation, small groups, and small group leaders so they can stay connected anywhere and anytime. It's a companion app to Realm, which means as you update or post information in Realm, it automatically updates in the Realm Connect app as well.

- 1. Inform your congregation** - Since you've already invited your congregation to join Realm, you can let them know to download the Realm Connect app as well. You can communicate with your entire congregation by sending an email from the *Custom Query* area in Realm.

- 2. Download the Realm Connect app** - Downloading the Realm Connect app is as simple as visiting the Apple App Store (for iPhone) or the Google Play Store (for Android) and searching for Realm Connect - For Our Church. After the congregant has downloaded the app, they'll use the same login information as they do for Realm on a computer - no additional login information is necessary.

“The Realm Connect app is a great app for sharing and managing the activities of your church - your members can create accounts and log into the website or the app.”

-Gregory, Elder

OFFER AN ONLINE OPTION FOR YOUR SERVICE

- 1. Create your video** - YouTube is a free option that allows you to pre-record your service, or you can generate a link using a streaming service that you can copy and share.
- 2. Create a registration event in Realm** - Create a registration event for your normal service time. Paste the link you generated into the description along with a message to your congregation as shown below.

Register Close

- Promote your event** - When you click *Save & Close*, your event will show in the Event Registration list for staff and will automatically post to the newsfeed for congregants.

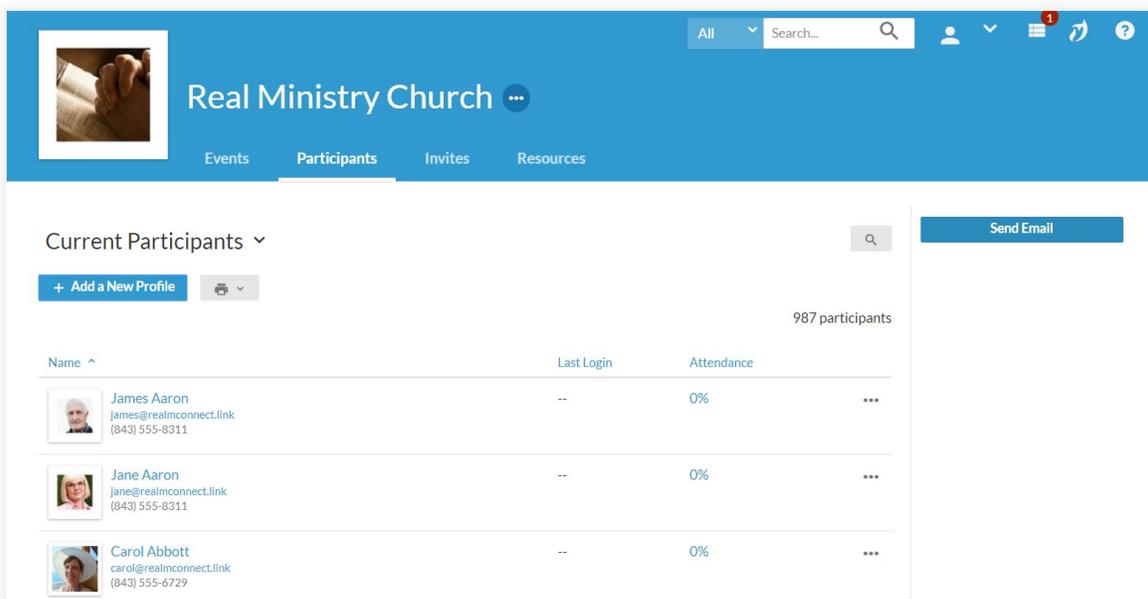

If you would like to email or post the event on social media, you can get a shareable link by going to the event in your registration list, clicking on the ellipsis on the left, choose *Share*, and clicking *Get shareable link / embedded HTML / QR code*.

COMMUNICATE WITH YOUR CONGREGATION

- Send emails** - In Realm, your entire membership (including anyone in your system) can be found in your system group, which is named after your church. You can find your system group by going to Admin/Ministry Areas/System Groups.

Write an informative message straight from you to your congregation and email it to that group. Even those without Realm logins will receive the email as long as they have an email address in Realm.

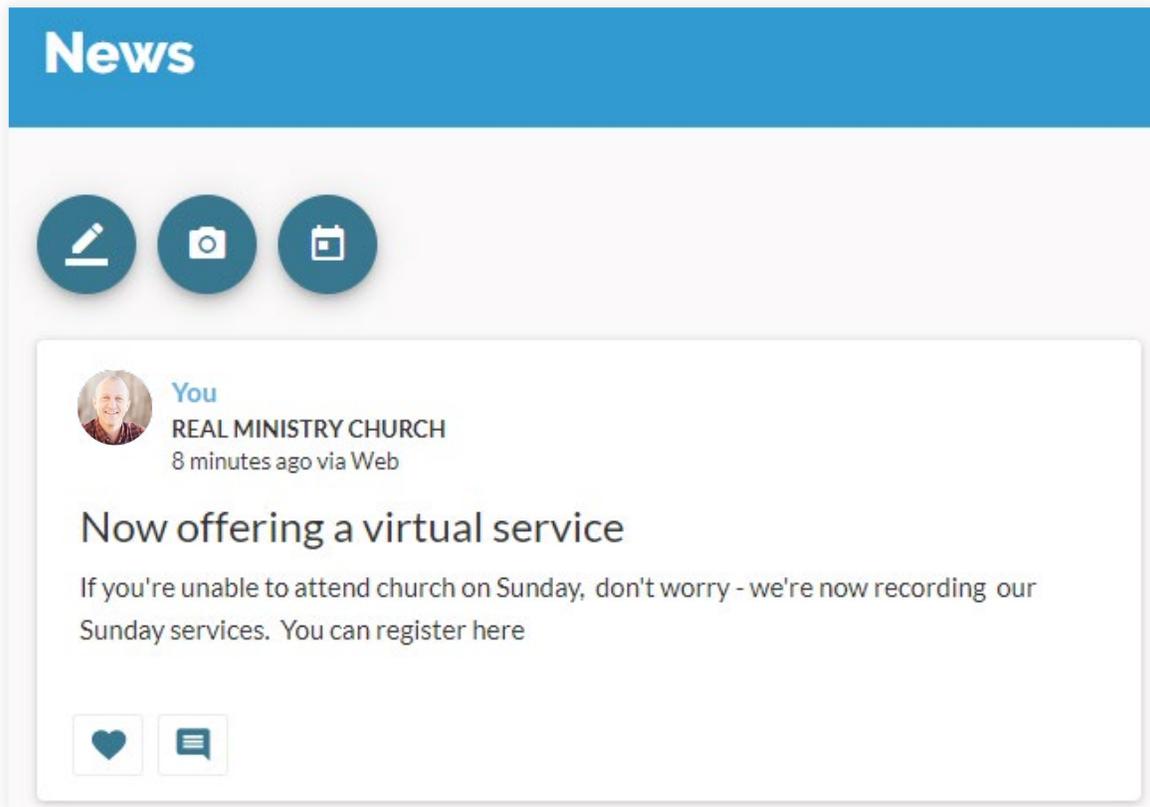

Be sure to include a link back to Realm in your email and ask those who may not have a Realm account to create a login and remind those with Realm logins to keep their contact information updated to stay connected.

The screenshot shows the Realm software interface for Real Ministry Church. The top navigation bar includes a search bar, user profile, and notification icons. The main content area displays the 'Participants' tab with a 'Send Email' button. Below the button, there is a table of current participants with columns for Name, Last Login, and Attendance. Three participants are listed: James Aaron, Jane Aaron, and Carol Abbott.

Name	Last Login	Attendance
 James Aaron james@realmconnect.link (843) 555-8311	--	0%
 Jane Aaron jane@realmconnect.link (843) 555-8311	--	0%
 Carol Abbott carol@realmconnect.link (843) 555-6729	--	0%

2. **Post updates in the Newsfeed** - Realm's Newsfeed is a great way for you to post quick updates to your entire congregation, such as reminders for your virtual service.

You or your group leaders can also post to a group's Newsfeed to share updates about a meeting, ask for prayer requests, or keep in touch with one another.

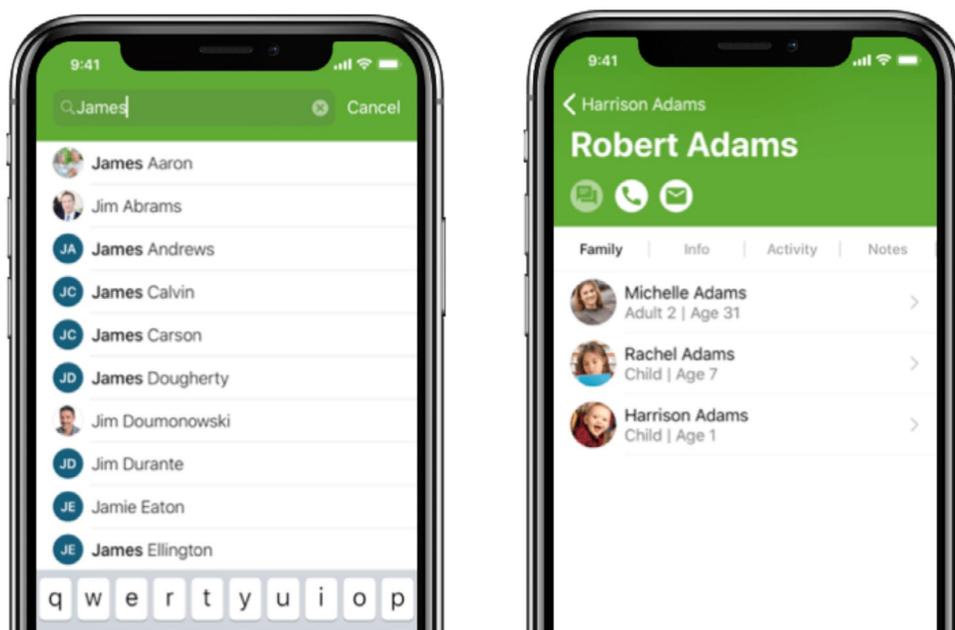

“Realm changed the way we do ministry. We have been thrilled with Realm and the communication tool it has provided us. Our groups and members are more connected than they have ever been.”

-Laurie, Communications Director

PROVIDE PASTORAL CARE

Pastors that use Realm, including the Realm Shepherd app, are finding that they can lessen their “hands-on” approach to pastoral care without diminishing their value and still positively impact their congregation.

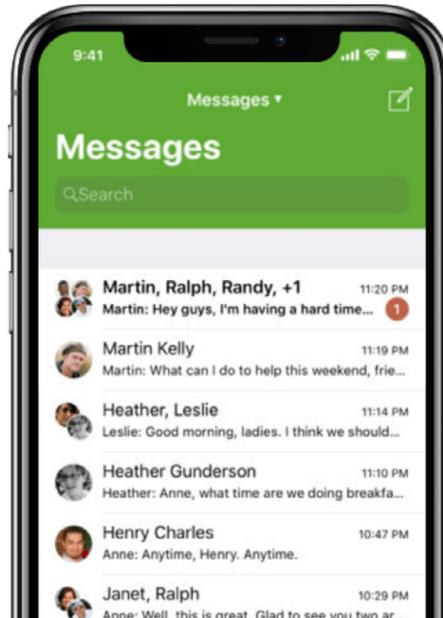

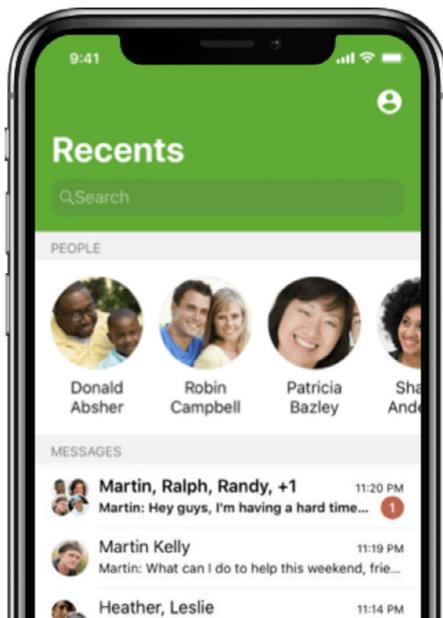

Everyone in your congregation, at your fingertips - The Realm Shepherd app, which is built specifically for pastors and pastoral care teams who are away from the office, allows your pastoral staff to quickly and easily find information for every member of your congregation at a moment's notice. Pastors can select an individual, quickly find their profile information, and see other members of their family so your pastors always know how the congregation is connected.

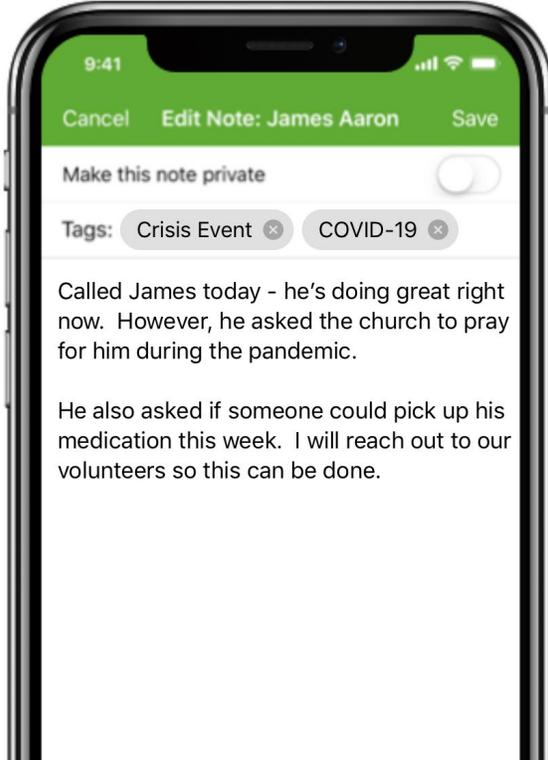

Walk alongside your congregation - It's easy (and understandable) for pastors to get lost in the stress of what's happening in their ministry. However, it's so important to remember how far each of your congregants has come as they continue to grow both in their faith as well as in your church. That's why the Realm Shepherd app presents pastors with each individual's walk with your church. This includes the groups in which they're most active, sacramental history, as well as any discipleship tracks they're on now or were part of in the past.

Stay Connected - The Realm Shepherd app allows pastors to check in on specific individuals or families by sending them a message to their Realm Connect app or email, which is especially important for those who are elderly or are unable to attend services regularly. Pastors can also access the congregant's mobile number to call or text them directly. There's no need to know their contact information or scramble to find it at the church office - all the information pastors need is pulled from Realm directly into their Realm Shepherd app.

Record pastoral care efforts - Your church's pastoral care efforts are only as successful as the notes that are recorded from those interactions. That's why it's so important for the church to have tools so they can record those deep, personal connections with each congregant. Using the Realm Shepherd app, pastors and pastoral care teams are able to document those interactions in pastoral notes. They can even log specific prayers for the individual. Those notes can be added at any time, referred back to when pastors need a refresher, as well as made private when confidentiality is paramount.

It's well-known that a pastor's job is never done. However, with all the tools offered in the Realm Shepherd app, pastors are in a great position to continue shepherding their congregation.

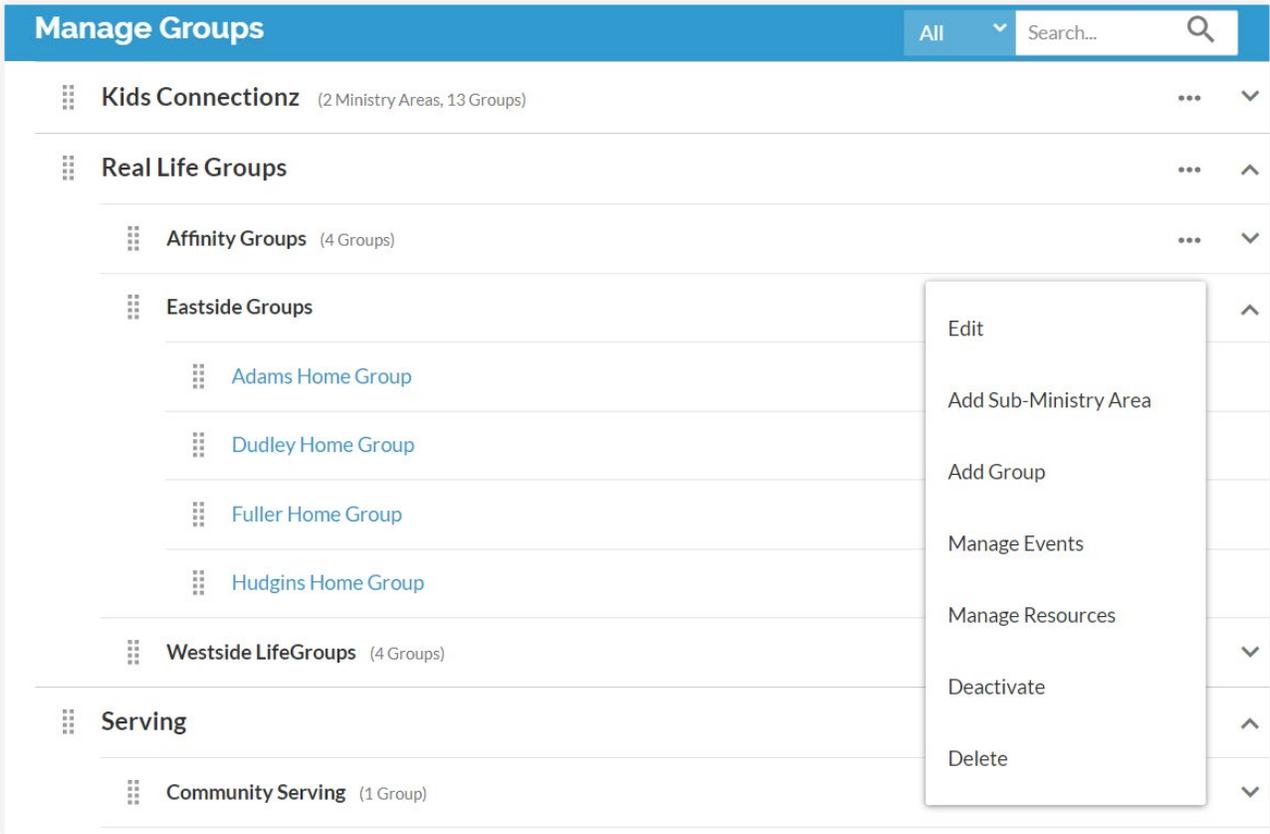

“I think one of the greatest things about the Realm Shepherd app is that all of our pastors have access to the same information about what’s going on in the life of our church family.”

-Connie, Transitional Associate Pastor

TAKE YOUR SMALL GROUPS ONLINE

Realm allows you to organize your small groups, schedule group events, and give your congregation a way to easily communicate and keep in touch.

- 1. Create a group in Realm** - Staff with the appropriate rights can create a group within the Admin section of Realm. Assign your leader or leaders. The group leaders can now invite others to join the group within Realm.

Anyone in the group X

2. Create virtual meetings - When meeting in person isn't possible, you can create events, such as a virtual Bible study, using Realm and free conference tools such as GoToMeeting. Group leaders can also mark attendance in the event in Realm.

The screenshot displays the Real Ministry Church website interface. On the left is a navigation menu with the church logo and options like 'Community', 'Communications', 'News', 'Inbox', 'Chat', 'History', 'Events', 'Giving', 'Groups', 'Directory', and 'Pathways'. The main content area is titled 'News' and features three circular icons for editing, posting, and calendar. The news feed shows two posts from 'You' (FORTIER HOME GROUP). The first post is for a 'Virtual Bible Study' on March 19th, with details about the topic (Romans 3) and a meeting link. The second post is for 'Valentine's Dinner' on February 14th. A 'VOLUNTEER' section prompts users to update their information. At the bottom left, there are links for 'Support | Privacy | Terms of Use' and a copyright notice for ACS Technologies.

3. Share Information - Group members can post prayer requests, changes to meeting times, or even share pictures or other personal messages. Everyone in the group has the ability to comment on posts, and all communications are private and accessible only to those in the group.

4. Invite others to your group - If you want to broaden your small group, you can make the Realm group searchable. Anyone with a Realm account at your church can search for groups, choose their areas of interest, and request to join. The group leader will receive a notification and can accept or decline.

The group leader can also invite anyone in Realm to join the group by searching for their records. Once someone is added as a participant, the group leader can invite them to join Realm with a click of a button.

With Realm, your congregation can continue their relationships with God, your church, and other congregants throughout the week.

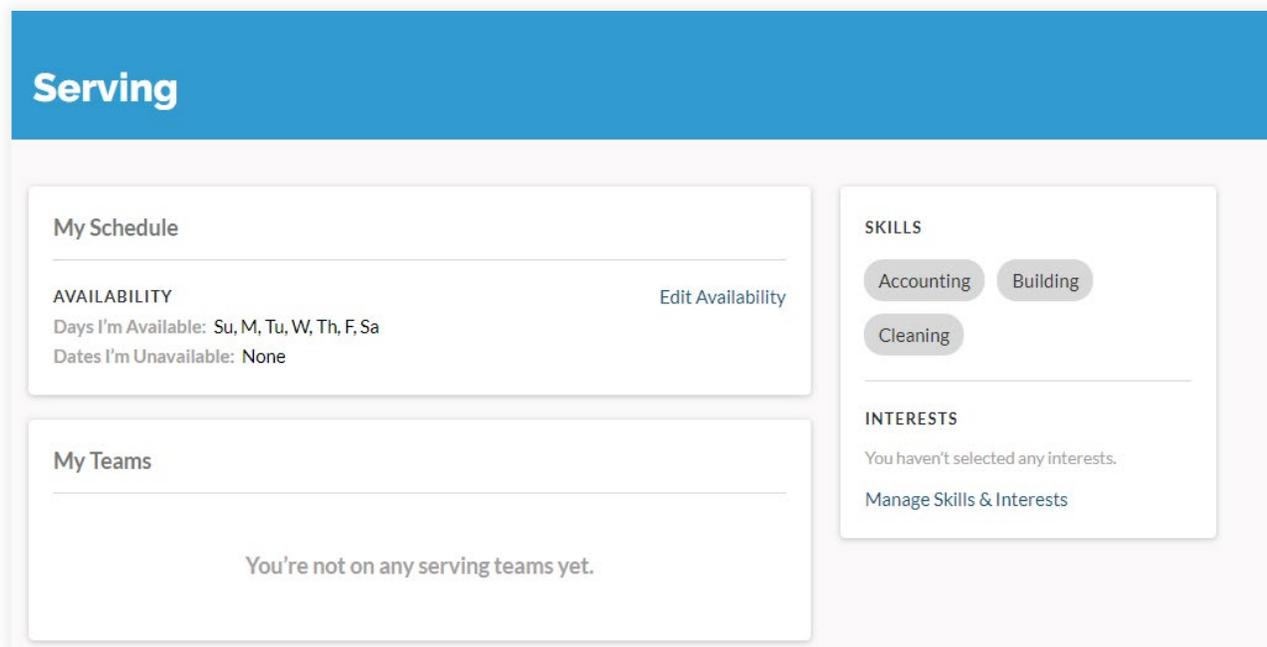

“Our small group leaders are able to see who all is in their group and can keep up with those people. They have access to it all the time, and it’s a good way to stay in touch with our small groups and see who we’re discipling.”

-Danielle, Communications Administrator

COORDINATE YOUR VOLUNTEERS

With Realm, you can centralize and organize your church's volunteer programs. Congregants can identify their skills and interests and enter their volunteering availability, easing the work of your administrative staff.

- 1. Ask your congregation to update their profile with serving information** - Send a message to your system group and ask your congregants to go to the Serving section of their profile. Here, they can add their skills and interests as well as their availability.

2. **Create serving teams** - Staff with the appropriate rights can create serving teams and roles within the Admin section of Realm.

IMPLEMENT ONLINE GIVING

Vanco, our online giving partner, conducted a survey and discovered 22% online contributors make donations to their churches two or three times a month. And 39% of online contributors give weekly (compared to 34% of traditional givers).^{} Implementing online giving through Realm allows your congregation to support your church anytime, anywhere.*

Realm's integrated online giving solution provides multiple ways for your congregants to be good and faithful stewards. It's easy to set up and you only need a computer and internet service to do so; visit acst.com/online-giving-video to see how to set up online giving today.

A variety of payment methods are available - debit, credit, ACH - and a variety of ways to give - text giving, online, via a giving form, or through the Realm Connect app - so your congregants can give what they want from wherever they are and however they want to give.

Giving Forms

- 1. Create giving forms** - From the Giving section in Realm, choose Online Giving Forms. You can customize the form, as well as designate specific funds - such as coronavirus relief efforts shown in the example below.

The screenshot shows a giving form titled "Coronavirus Relief Efforts" for Florence, SC. The form asks "How much would you like to give?" and has a text input field for the amount, currently showing "\$ 25.00". To the right of the amount field is a dropdown menu for the fund, currently set to "Missions". Below the amount and fund fields is a "+ ANOTHER FUND" button. There are two large buttons for "GIVE ONCE" and "GIVE MULTIPLE TIMES". Below these is a "Gift date" section with a calendar icon and the text "Today". At the bottom left, it says "Total: \$25.00". At the bottom right is a blue "CONTINUE" button. The footer includes "POWERED BY REALM" and links for "Terms and Conditions" and "Privacy Policy".

- 2. Share the link** - Copy the link to your giving form and embed it on your church's website, share in the Newsfeed in Realm, or post on social media. Anyone can donate, whether they have a Realm account or not.

Giving Dashboards

The Giving Dashboard in Realm gives you a quick overview of your church's giving. You can see a breakdown of what percentage of giving is going to each fund, how much giving is from each payment type, and how your overall giving compares year over year. If you created or designated fund, you can also filter the Dashboard to only show that data.

If you want to see more detailed information, Realm has multiple predefined reports so you can filter by date or fund. You can export and email this report or save it to My Saved Reports and then share it with other staff members straight from Realm.

The screenshot shows the 'Giving Comparison' report configuration interface. The title is 'Giving Comparison' with an edit icon. Below the title are 'Print' and 'Save' buttons. The configuration fields are: 'Type' set to 'Gifts', 'Compare' set to 'Feb 1 - Feb 29', 'With' set to 'Last month', 'Fund' set to 'Budget Fund' and 'Building Fund', and 'Individual Query Filter' set to 'Select a saved custom query...'. At the bottom, there are 'Run', 'Save and Run or Cancel' buttons.

The Giving Dashboard and Predefined Giving Reports make it easier and quicker for you to see and understand where your giving is today as well as compare it to where it has been in the past. Giving is a need for churches and sharing that information among your church family can help them to understand how important giving is to your ministry.

"In the first three months of doing online giving through Realm, we've seen a 15% increase in our giving, and roughly half of our giving now is done through online giving in Realm."

-Eric, Lead Pastor

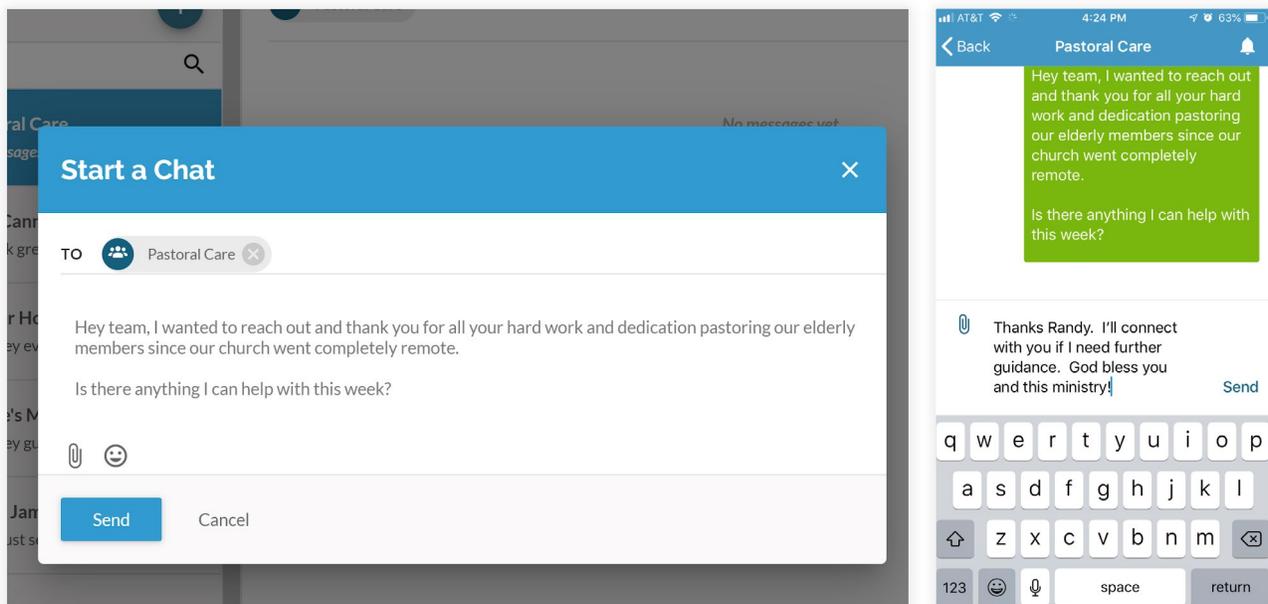

*Source: 2019 Vanco Churchgoer Giving Study

MANAGE OPERATIONS REMOTELY

Realm, Realm Accounting, and Realm Payroll are completely cloud-based allowing you to easily manage operations online.

Communicate with staff - Though emails have their place, what if you needed to quickly contact multiple staff members at once? Realm provides a way for your whole staff to stay connected even when you can't communicate physically.

Realm allows your staff to communicate together in groups through Chat. You can set up groups for each of your staff functions, such as your finance team, those in administration or leadership, and anyone in pastoral care. With Realm, staff can chat in real-time as if they were right beside each other. And by downloading the Realm Connect app, staff will be notified immediately even if they aren't near their computer. That way your entire staff and other teams are always in communication no matter where they are.

And since you can set up groups for each of your church staff teams, you can also communicate in each of the group's Newsfeeds, or message all staff in your Realm-generated staff group. The message will be there when staff log in, but they'll also receive the communication in a way that best fits their preference so you know they're always connected to your church, no matter what.

The screenshot shows a web interface for a church staff group. On the left is a sidebar with the text 'istry' and 'rch' in blue, and 'nity' in white on a blue background. Below that is 'ons ^'. The main content area has a blue header with '< News'. The first post is by Randy King, a staff member, posted 11 minutes ago via Web. The post title is 'Week of March 23' and the text says: 'Good morning, everyone! Please let me know what you need from me this week, if anything. I'll pray for each of you, our church, and our community as we work through the COVID-19 pandemic.' Below the text are icons for a heart and a comment bubble with the number '1'. The second post is by Lin Adams, posted 7 minutes ago via Web, with the text: 'Thank you, Randy. I'll be reaching out to some of our elderly this week. I would love your prayers and guidance as I take that on.' The third post is by 'You' (the user) and contains the text: 'Thank you for your prayers, Randy! I'll pray for you as well. I'm good for now, but we'll connect later this week about some needed items for our elderly congregation as they continue to self-quarantine.' Below the text are 'Reply' and 'Cancel' buttons.

Automate processes - Realm offers robust tools for streamlining processes and church workflows, ideal when staff are dispersed. Called Pathways, this feature allows your staff to manage any process or workflow your church may encounter, such as arranging pastoral care or tracking actions of volunteers. Some churches are even using Pathways in Realm for keeping themselves on track and accountable, such as the steps needed to close out the month.

Track database changes - Knowing what changes are being made in Realm is extremely important for accuracy and security. The changelog tracks changes to staff, congregants, Groups, Pathways, and so much more, so you'll always know what's happening to your Realm data even when staff aren't together.

“I love the Dashboard and Pathways functions in Realm. The dashboard allows me to see statistics at a quick glance. Pathways allows us to streamline and view processes and procedures.”

-Cheryl, Ministry Coordinator

With Realm, you can take your ministry online by staying in communication with your members, taking your small groups online, enabling staff and volunteers to provide pastoral care, accepting giving online, and keeping your staff united by managing operations remotely.

“Realm has facilitated communication in the church and is extremely versatile given its use on a computer or mobile device. By enabling parishioners to directly engage with each other, with their own profile, and church groups they are in - it not only provides the staff with a powerful software tool but also enables the entire church to engage and connect. This is probably the greatest strength of Realm: its function as a staff tool (database management and financial accounting) as well as the ability to create engagement, connection, and community within the parish. All in one place.”

-Judy, Parish Administrator

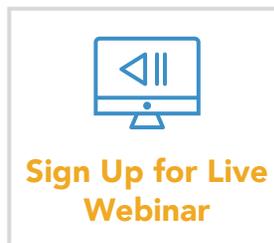

Realm provides solutions that will make your ministry and life easier. It is cutting-edge church management software that combines administration, accounting, and community into one system. It also connects your entire church and personalizes each person's involvement in your ministry.

We'd encourage you to explore all that Realm makes possible by taking a demo, walking through a self-guided tour, or speaking with an associate today!
