

Children's and Youth Ministry

Nurture the next generation with next-generation tools.

Creating a welcoming and safe environment for everyone is an important aspect of your ministry. ACS Technologies (ACST) provides ministries with solutions for check-in, attendance, and communications tools so you're always providing the best experience for families.

Problems to Solve:	ACST Children's & Youth Ministry:
<p>Ministries need tools to create a safe environment for children, youth, and volunteers.</p>	<p>The children and youth are the future of your ministry, so it's crucial to have tools to oversee their safety. Additionally, properly managing volunteers is a key component to a safe ministry. No matter the size of your ministry, ACST's solutions for check-in and attendance allow ministries to seamlessly check in families and volunteers from kiosks or on mobile devices and check in new visitors easily. Also, youth leaders can take attendance directly from their mobile devices so you always have a record of youth taking part in your ministry. For added security, detailed, custom badges can be designed and print important information like allergies, classroom information, and more.</p>
<p>Ministries need ways to communicate with parents.</p>	<p>Keeping parents in close communication with your ministry is an important part of building relationships. ACST provides multiple types of communication channels so children's ministry and volunteer leaders can stay in contact with parents. Parents can be contacted through email, chat, text messages, and in-app notifications. They can even communicate with leaders through their children's small groups online and on their mobile devices.</p>

How ACST Serves Children's and Youth Ministry:

- Utilize custom-built kiosks so families can clearly see where they need to check their children in for events and services
- Checking in is as simple as scanning a barcode or typing in a name or phone number
- Take advantage of mobile check-in for larger ministries or those who wish to eliminate long check in lines
- Check in volunteers so you'll always have record of volunteer attendance
- Take attendance for youth on the fly via mobile apps built for your members
- Design and print custom badges for anyone and include important details such as allergies, room numbers, and more
- Run background checks on volunteers and leaders who work with children and youth
- Communicate with parents through multiple channels such as email, text, and in-app notifications via their mobile device
