

# Leadership

*Answer His call to lead with specialized ministry solutions.*

Solid leadership is the foundation of your ministry's success. ACS Technologies (ACST) provides leaders with access to rich community analytics, in-depth reports, multiple types of giving to support your goals, and so much more.

Problems to Solve:	ACST Leadership:
Leadership needs access to detailed analytics to make better decisions for their ministry.	Making God-honoring decisions in your ministry is no small task. ACST provides church, parish, diocese, and denominational office leadership with detailed metrics for analyzing all aspects of ministry health. From giving and pledge dashboards to in-depth reporting for events or group involvement and more, ACS Technologies equips leaders with the tools they need to bring change to their ministry.
Leaders need to provide giving solutions that meet the needs of their ministries and contributors.	Providing multiple ways to donate is key to a thriving ministry. ACST offers various giving methods for churches, parishes, and diocesan and denominational offices to reach anyone in their ministry or community. Giving is available through mobile, online, and text giving, custom online giving and pledge forms, and more. Best of all, ACST's giving solutions integrate back into your choice of church management solution to minimize error and double entry.
Ministry leaders need tools to reach and engage those in their church and community.	Ministry leaders often struggle to find ways to engage with their members coupled with the duty to reach more in their community. ACST provides leadership with needed tools to reach both audiences, such as custom website solutions, worship and event streaming, community analytics and demographics tools, and more.

## How ACST Serves Leadership:

- Assists leadership in making good decisions for their ministry through deep analytics, customizable dashboards, in-depth ministry reports, and more
- Promote your ministry and other ongoing through websites that can be customized to fit your specific needs
- Provide your community with ways to connect with your ministry by streaming worship services or other events
- Build deeper connections and make more informed decisions about your community with robust tools for identifying community needs, better ministry planning, and more
- Help staff find their path to success in their role by providing customized learning opportunities and paths
- Identify, create, and oversee organizational processes for better step-by-step ministry management
- Provide convenient and modern ways for giving such as text, mobile, and online
