Pastoral Care

Shepherd your flock no matter where you are.

Pastoral care teams are crucial to the success of your congregation. ACS Technologies (ACST) provides mobile apps, tools for discipleship tracking, multiple communication mediums, and more to meet the needs of anyone shepherding your congregation.

Problems to Solve:	ACST Pastoral Care:
Pastors, priests, and clergy need mobile tools to access individual and family information while away from the church.	ACST provides pastoral leaders and staff with mobile tools built specifically for their roles. Pastors, priests, clergy, and anyone serving on pastoral care teams can access details about their congregation, such as their profiles, family relationships, ministry involvement, private notes management, and more.
They need solutions for tracking the details of how individuals are being discipled.	It's difficult to guide someone's future in your ministry if you don't know their past or present. ACST has several solutions designed for shepherding and guiding every individual who walks through your doors. As they grow with your ministry, you can document their journey of discipleship for future records.
They need access to communication tools to stay in close contact with their pastoral care teams.	Good communication is crucial for pastoral staff to build solid relationships with their congregation. That's why ACST offers robust communication tools via Constant Contact integrations and mass emails, mobile apps and in-app notifications, texting, and more.

How ACST Serves Pastoral Care Ministries:

- Provides tools and mobile apps for pastoral care ministries built specifically for the needs of pastors, priests, clergy, and other pastoral staff

- Always have the most up-to-date information on your congregation no matter where you are

- Gain access to 24/7 online ministry training and consulting taught by certified ministry experts

- Universal logins - no need to remember multiple usernames and passwords

- Access congregant and parishioner involvement including group participation, discipleship tracks, and sacramental information

- View family connections and associations so pastors always know how others are related

- Reach individuals through multiple communication mediums so they're always being communicated to in the best way for them
