

Events

Create a place for fellowship and connection.

Events bring your members together and create an environment where new visitors feel welcome in your ministry. ACS Technologies (ACST) provides ministries with events management tools you need to share your ministry with the world.

Problems to Solve:	ACST Events:
<p>Ministries need tools to create and communicate events of all sizes and audiences.</p>	<p>ACST provides robust tools for any size ministry to create events and communicate them with your audience. Ministries can create intimate events for small groups with RSVP capability and large, church-wide registration events for entire ministries and your community. Plus, leverage member-facing apps so they can stay up-to-date when new events are created.</p>
<p>Ministries need to expand their reach to include virtual options.</p>	<p>Some events are simple and don't entail costs or other needed details from your registrants. Other events repeat weekly, require payments and discounts, items to bring or purchase, facilities management, and additional registrant information needed so you can plan properly. No matter the type of event your ministry creates, ACST's tools for event management will provide you with everything you need to make your events successful.</p>
<p>Use event communication tools to share details for online events.</p>	<p>To reach your audience in the most effective way possible, that means providing a way to fellowship that's best for them. Connect events directly to online meeting sources such as Google Meet so registrants can stay connected no matter where they are.</p>

How ACST Serves Events:

- Create one-time or recurring events of any size from intimate meetings for small groups to large ministry or community-wide registration events to share your message
- Design simple, free events or detailed events with payments and discounts
- Manage added event details such as additional items to purchase or bring and custom questions to learn more about your registrants
- Leverage ministry mobile apps to promote your events and tailor your communications for any audience
- Integrate facilities management into your event planning for room booking and more
- Empower your congregation to find events that interest them through filtered event lists
- Add check-in to any event to streamline attendance or manage it through mobile apps
- Access event calendars for staff so they stay up-to-date on what's happening in your ministry
