

Plan, Engage, Grow.

Utilize tools in Realm and Growth Method to enhance efficiency within your services, elevate the experience for new visitors, and ultimately, grow your church.

REALM

Eliminate volunteer burnout by easily identifying your members' skills and interests, organizing volunteer teams, and scheduling with a healthy pool of recruits.

GROWTH METHOD

Create online volunteer forms to allow members to input their skills and interests for ministry volunteer opportunities.

SUCCESS

Eager volunteers scheduled ready to serve

Give your church the opportunity to follow up with first-time attendees by capturing new visitor information through Check-In and Realm eGiving.

Give visitors multiple touchpoints to share contact info: Realm, text sign-up, or connect cards that can be scanned into Growth Method.

Capture new visitor information

Create an internal process for new visitor follow-up, one that's easy to manage to ensure no one falls through the cracks.

Use automated in-app communication (texts, calls, postcards, emails) to increase engagement with visitors.

Effective visitor follow-up

By utilizing Dashboards, easily identify first-time visitors and first-time givers so you can measure your church's growth.

Use the Growth Dashboard to assess your ministry engagement efforts and monitor each visitor's progress towards spiritual goals.

Analyze your efforts for maximum impact

Increase engagement today with Realm and Growth Method.
